BACKGROUND AND AIMS OF SERVICE:

Impact Initiatives provide services across Sussex which support health and wellbeing and which help Sussex people live healthy and fulfilling lives. We strive to make tomorrow a better day.

Our support for people to access food developed through our work with Brighton and Hove City Council as part of our response to Covid 19. This linked into our provision of a single point of contact (SPOC) for our Ageing Well* service and support we provide for older people around nutrition and eating well.

We are now developing this further to provide a service for people of all ages who are facing challenges in accessing nutritious food. The service will work with individuals to find the right solution for them which will include eg.support to set up online shopping or building confidence in using public transport or supermarket shopping or finding local delivery options. Whilst working with people aged 18+ this service will work closely with the Ageing Well Team and SPOC

*The Ageing Well Service commissioned by Brighton and Hove City Council and the CCG provides coordinated services and events across the City. These services are easy to access, reduce loneliness and social isolation and ensure older people in Brighton and Hove maintain and improve their health and wellbeing. It aims to fill current gaps, provide a combination of group and one-to-one activities across all areas of the City and will make Brighton and Hove the go to place for excellence in preventative services for older people

Starting on April 1st 2019 our aim was to make Ageing Well a national beacon of good practice. Ageing Well will ensure that no older person in Brighton and Hove is involuntarily socially isolated
